LANŠKROUN S.R.O.

QST_2026_004_PPWR2025/40	2026 02 17
PFAS in food-contact packaging	Rev0.1

I. Packaging Type Identification

Transparent and colored with additives PET (Polyethylene Terephthalate) preforms.

Product Nomenclature [Recepture]

Description: Semi-finished plastic components intended for stretch blow molding into beverage bottles.

2. Manufacturer: BEMA Lanškroun s.r.o.

Registered Address: Dukelských hrdinů 1192, 563 01 Lanškroun, Czech Republic

Authorized Representative: Radek Dostál, Quality manager

3. Responsibility Statement

This declaration of conformity is issued under the sole responsibility of the manufacturer, BEMA Lanškroun s.r.o.

4. Object of the Declaration

The object described above is in conformity with the relevant Union harmonization legislation:

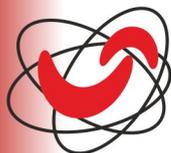

Regulation (EU) 2024/1106 (PPWR) on packaging and packaging waste.

Regulation (EC) No 1935/2004 on materials and articles intended to come into contact with food.

Regulation (EU) No 10/2011 on plastic materials and articles intended to come into contact with food.

5. Conformity with Sustainability Requirements (Articles 5 to 12)

We hereby declare that the packaging complies with the following mandatory requirements of the PPWR.

QST_2026_004_PPWR2025/40	2026 02 17
PFAS in food-contact packaging	Rev0.1

	Requirements	Reference to standard	Conformity assessment
1. Composition	1.1 Prevention of source reduction ¹	Requirements specific to manufacturing and composition – Prevention by source reduction (EN 13428)	Yes
	1.2 The concentration of Lead, Cadmium, Mercury, and Hexavalent Chromium does not exceed 100 mg/kg.	Requirements for measuring and verifying the four heavy metals present in packaging (CR 13695-1) EN 13428	Yes
	1.3 Minimization of other dangerous substances ¹	EN 13428 CR 13695-2	Yes
	1.4 A product or material is considered compliant if the concentration of PFAS does not exceed the following thresholds:	25 ppb (parts per billion) for any individual PFAS substance, as determined by targeted analysis (excluding polymeric PFAS); 250 ppb for the total sum of PFAS substances measured via targeted analysis, including the degradation of precursors where applicable (excluding polymeric PFAS); 50 ppm (parts per million) for the total content of all PFAS, including polymeric PFAS. Note: If the total fluorine content exceeds 50 mg/kg, the manufacturer, importer, or downstream user (as defined in Article 3 of Regulation (EC) No 1907/2006 (REACH)) must provide proof regarding the source of the fluorine.	Yes
	2 Reusable natures ²	Ensure packaging unit suitability for reuse according standard (EN 13429)	Yes
3. Recovery	3.1. The preform is "designed for recycling"	according to the criteria set out in Annex II. Requirements for packaging recoverable by material recycling (EN 13430)	Yes
	3.2. Recoverable nature in the form of energy recovery ³	Requirements for packaging recoverable in the form of energy recovery, including specification of minimum inferior calorific value (EN 13431)	Yes
	3.3 Recoverable nature in the form of composting or biodegradation ⁴	Requirements for packaging recoverable through composting and biodegradation (EN 13432)	No

Yes - Complies

No = Does not comply
